

SPACE QUALIFIED COUPLERS

SERVING THE SPACE MARKET, ONE CONNECTION AT A TIME

QUICK FACTS

- Compact size
- Variety of coupling options
- Options ranging from 2-52GHz
- 50 Ohm impedance
- Industry leading insertion loss

ABOUT THIS PRODUCT

XMA's space qualified couplers are the ideal, compact product for your next space mission. XMA offers couplers in a variety of bands, ranging from 2GHz to 52GHz in SMA, 2.92mm, 2.4mm, or 1.85mm connectors.

These high performing couplers operate at an impedance of 50 Ohms. Our lightweight couplers' temperature ranges suit space applications thanks to our cryogenic capabilities. Inquire today.
