

# 8 WAY SPACE QUALIFIED POWER DIVIDER

SERVING THE SPACE MARKET, ONE CONNECTION AT A TIME

## QUICK FACTS

- Successful in orbit
- Tight VSWR, 1.2:1
- SMA – f connectors
- Stainless Steel Casing for Durability
- TVAC Ready

## ABOUT THIS PRODUCT

XMA's 8 way space qualified power divider has successful legacy in orbit. Our durable stainless steel divider comes in a variety of frequency options, often with SMA connectors. The VSWR is extremely tight, with a design goal of 1.21:1. This divider shows peak performance on the ground and in orbit. It is fully TVAC ready and has passed a plethora of space grade testing, including shock, vibration, and thermal cycling. Inquire today to determine the best design for you!
